INTRODUCTION

- This SOP applies to OXIDIZERS. Oxidizers initiate or promote combustion, usually through the release of oxygen.

GENERAL LAB RULES

1. No eating, drinking, smoking, handling contact lenses, or applying cosmetics in the laboratory.
2. Persons shall wear buttoned lab coat, long pants, safety glasses or goggles and appropriate gloves when working with hazardous chemicals.
3. Mouth pipetting is prohibited; mechanical pipetting devices are to be used at all times.
4. All procedures are performed carefully to minimize the creation of splashes or aerosols.
5. Wash hands
   - after handling chemicals materials,
   - after removing gloves, and
   - before leaving the laboratory.

POTENTIAL HAZARDS

- Oxidizers accelerate development of fire and increase the intensity if fires.
- Cause substances that do not readily burn in air to ignite and burn rapidly.
- Cause combustible materials to burn spontaneously.

HEALTH HAZARDS

See SDS for specific health hazards.
## PERSONAL PROTECTIVE EQUIPMENT

### EYE PROTECTION
- Safety glasses, goggles or face shields shall be worn during operations in which OXIDIZERS might contact the eyes (e.g., through vapors or splashes of solution).
- Ordinary (street) prescription glasses do not provide adequate protection. Adequate safety glasses must meet the requirements of the Practice for Occupational Education Eye and Face Protection (ANSI Z87.1-1989) and must be equipped with side shields.

### HAND PROTECTION
- Use disposable nitrile gloves when working with chemicals. Check chemical compatibility chart for breakthrough time when using.
- Laboratory personnel should thoroughly wash hands with soap and water before and immediately upon removal of gloves.

### LAB COATS, ETC.
- Button lab coats, closed toed shoes, long pants and long sleeved clothing shall be worn when handling OXIDIZERS. Protective clothing shall be worn to prevent any possibility of skin contact with OXIDIZERS.

## WORK PRACTICES
- Use extreme caution when mixing oxidizing agents with flammables or combustibles.
- Follow all PPE recommendations on SDS
- Ensure no additional flammable or combustible materials are in the area when using oxidizers.

## SPECIAL HANDLING PROCEDURES AND STORAGE REQUIREMENTS
- Do not store with incompatible material.
- Do not store with flammables or combustibles.
- Review SDS for specific storage conditions.

Additional Lab Specific Special Handling/Storage Procedures
OXIDIZERS

Effective Date: 8/23/2013
Revised Date: 8/23/2013

WASTE DISPOSAL

- Chemicals shall not be drain disposed unless prior approval is given by EH&S.
- Excess OXIDIZERS and all waste material containing OXIDIZERS must be placed in a container labeled with the following “HAZARDOUS WASTE OXIDIZERS”, AND THE FULL CHEMICAL NAME. Contact EHS at x3427 for hazardous waste removal.

EMERGENCY PROCEDURES

Emergency Numbers:

<table>
<thead>
<tr>
<th>Emergency</th>
<th>Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fire and Medical Emergencies</td>
<td>x5911 (911 on cell phone)</td>
</tr>
<tr>
<td>Environmental Health and Safety</td>
<td>x3427</td>
</tr>
<tr>
<td>Hillcrest Urgent Care (employees)</td>
<td>336-760-8999</td>
</tr>
<tr>
<td>Student Health (students only)</td>
<td>x5218</td>
</tr>
<tr>
<td>Poison Control</td>
<td>800-222-1222</td>
</tr>
</tbody>
</table>

FIRST AID

1. If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Call x5911 for medical assistance.
2. In case of skin contact: Take off contaminated clothing and shoes immediately. Wash off in safety shower for at least 15 minutes. Call x5911 for medical assistance.
3. In case of eye contact: Rinse thoroughly with plenty of water at eyewash for at least 15 minutes and call x5911 for medical assistance.
4. If swallowed: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Call x5911 for medical assistance.
5. Call x5911 and describe the extent of injuries.
6. Report all accidental exposures to EHS and Human Resources (employees) or Student Health (students).
7. Complete an online injury/illness report if there is an over-exposure to the chemical or if there is an accident involving the chemical.

SPILL AND ACCIDENT PROCEDURES

<table>
<thead>
<tr>
<th>SPILL QUANTITY</th>
<th>PROPER SPILL RESPONSE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spill less than 500 mL</td>
<td>Contact Environmental Health and Safety (x3427) and clean up spill using spill kit. Avoid breathing vapors.</td>
</tr>
<tr>
<td>Spill greater than 500 mL</td>
<td>Do not attempt to clean up spill. Leave the area and immediately report to WFU Police (x5911) and EHS (x3427).</td>
</tr>
</tbody>
</table>
